CV-5000 and CC-100P refraction system

The full integration of CC-100P LCD chart system operation into the controls of Computerized Phoropter CV-5000 is a unique high-tech, innovative and creative solution for eye care professionals.

The integration of both instruments guarantees the highest level of flexibility and operator friendliness. The contemporary designs emphasize the professionalism of the eye care specialist.

CV-5000 / KB-50 / CV-5000PC

- Easy to understand user interface
- Fully integrated refraction system
- User-friendly operation
- User defined refraction protocols
- Full control of Chart Systems
- Customer Information tool

CV 5000

- Fast and silent lens rotation
- Small volume allows patient monitoring
- Wide power range
- Contemporary Design
- Integrated near test LED illumination

KB 50

- Color LCD Touch Screen
- Ergonomic user Interface
- Programmable test sequences
- Clear button layout
- 21-step tests available

CV 5000PC

- Ergonomic User Interface
- Full CV-5000 Control
- Mouse operated
- Programmable test sequences
- 21-step tests available

CC-100P

- Contemporary Design
- Patent pending Polarization
- Integrated PC
- Easily upgradeable
- Flexible and versatile
- ISO 8596 compliant tests
- ETDRS charts
- Test result graphs displayed
- Scaling from 2,9 to 6,1 meter

CC 100P

- 23" High brightness Color Screen
- Wide range of optotypes
- 100% Polarization
- Spatial Frequency Contrast Sensitivity test
- HRR Color Vision test

IMPORTANT

Subject to change in design and/or specifications without advanced notice.

In order to obtain the best results with this instrument, please be sure to review all user instructions prior to operation.
